**FIRST SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**

Assistant Commissioner for Patents  
Washington D.C. 20231

Transmitted herewith are Forms PTO/SB/O8A and PTO/SB/O8B listing cited reference documents provided with this First Supplemental Information Disclosure Statement that may be relevant to the subject application. It is respectfully requested that the documents be considered by the Examiner and an initialed copy of the forms be returned to the undersigned. It is believed that this disclosure complies with the requirements of 37 CFR §§ 1.56, 1.97 and 1.98 and the MPEP §609. If for some reason the Examiner considers otherwise, it is respectfully requested that the undersigned be called so that any deficiencies can be remedied.

Submission of these documents is consistent with the broadest interpretation of the duty of disclosure. In accordance with the rule for patent prosecution, such a submission is not to be construed as an admission that the information cited in the Information Disclosure Statement is, or is considered to be, material to patentability as defined in §1.56. Applicants respectfully reserve the right to challenge a conclusion that any of the submitted material represents information constituting prior art to the present application or that the information that applicant has located would be of the type used by one of ordinary skill in the art in solving the problems addressed in the present application. The submission of this material is consistent with the duty of disclosure and should not be interpreted as an indication that applicants have made a prior art search such that the Examiner should not undertake to conduct an independent prior art search.

As noted in the submitted press report from Yahoo.com, the two enclosed patents relating to electronic prescriptions have been licensed this year to at least four companies.

Applicants respectfully submit that the submitted material either alone or in combination does not disclose or render obvious the inventions claimed by Applicants in the present application.
